

About *On Board*

Finally, a playbook for corporate directors.

This book is the first-of-its-kind, providing a contemporary history of the role of a director and a rich, practical discussion of how directors today need to engage and act to excel in their role. *On Board: The Modern Playbook for Corporate Governance* is well-researched and written by a deeply experienced corporate director, investment banker, and expert witness in corporate litigation. Foster wades into the most critical governance debates and provides guidance on key topics such as effectively interacting with a CEO and navigating a corporate crisis.

The book covers the tremendous growth in transactions – including mergers and acquisitions and restructurings – and the increasing importance of institutional investors, as well as the role of environmental, social, and governance (ESG) concerns, that have led to today’s requirements and expectations for corporate directors. Filled with interviews with dozens of prominent executives, attorneys, bankers, judges, and other corporate leaders, as well as cases and anecdotes from inside numerous boardrooms, it is an engaging, comprehensive, and actionable playbook for good governance.

Early Reviews: *On Board*

“As a veteran CEO of a Fortune 500 company, I know that a board can help define strategy, strengthen operational performance, refine expectations and ensure a culture of integrity. Foster thoughtfully defines the role of directors in this vital and balanced “how to” examination of how effective boards should operate.”

Stuart Miller, Executive Chairman, Co-CEO and former CEO - Lennar

“Good governance is the foundation of a great company. This playbook flushes out the essence of good governance. I recommend it to entrepreneurs, directors and executives alike.”

Harvey Jones, Founding Director - Nvidia

“Using real world examples, Foster masterfully deciphers the complex matrix of historical custom, social mores, geopolitical influences, best practices, commercial realities, and laws and regulations that comprise corporate governance today. It’s impossible to read this astonishing overview of the governance landscape without developing deep respect for corporate directors.”

Melissa Sawyer, Co-Head of Corporate Governance - Sullivan & Cromwell

“With his wide-ranging background in investment banking and corporate boards, Foster’s book is a master class in corporate governance even for experienced directors and for everyone interested in how firms make decisions. The book offers both the lens and the focus for board success.”

Glenn Hubbard, Dean Emeritus - Columbia Business School
