AI

A tall, grey, arched-top gravestone stands prominently in the center of a foggy cemetery. A bright blue horizontal band is wrapped around the middle of the stone, featuring the word "BLOCKBUSTER" in bold, yellow, sans-serif capital letters, followed by a registered trademark symbol (®). The stone is surrounded by dark, overgrown grass. In the background, several other gravestones of various shapes are visible, all shrouded in a thick, grey mist under a heavy, overcast sky.

BLOCKBUSTER®

BLOCKBUSTER OBITUARY

On September 23, 2010, Blockbuster declared bankruptcy and ceased all operations.

At the height of the company's success, no one would have expected an outcome quite like this.

Netflix completely **redefined** the industry by transforming **customer experience** through an ultra-efficient **business model** and usage of **breakthrough technologies**.

This new experience delivered **internet ordering, unlimited selection** and **no late fees**.

Blockbuster could not replicate this strategy due to **short-term deliverables, business model** and **change culture**.

May Blockbuster rest in peace...

NETFLIX OBITUARY

On June 1, 2030, **Netflix** declared bankruptcy and ceased all operations.

At the height of the company's success, no one would have expected an outcome quite like this.

WHO? completely **redefined** the industry by HOW? .

Netflix could not replicate this strategy due to WHY? .

Organizational Barriers

- Change culture
- Business model
- Short-term deliverables

Appetite for Investment/Risk

- Failure aversion
- RoI tolerance
- Uncertainty

Technical Challenges

- Feasibility uncertainty
- Tech debt
- Integration

Prioritization

- Lack of decision mechanisms
- Innovator's dilemma
- Saying "no"

**“NEITHER REDBOX NOR NETFLIX
ARE EVEN ON THE RADAR SCREEN
IN TERMS OF COMPETITION. IT’S
MORE WALMART AND APPLE.”**

Jim Keyes, CEO of Blockbuster

Motley Fool interview, Dec. 2008.

Implementation approaches & AWS alignment

Proposed engagement model/next steps

Critical Business Challenges

- Semiconductor Supply Chain Vulnerability - Heavy dependence on external semiconductor suppliers has caused production disruptions affecting up to 18% of planned output, resulting in approximately \$1.1B in lost revenue opportunities in 2022-2023.
- Supply Chain Complexity - Managing 8,500+ suppliers and 9,000+ unique components with current inventory carrying costs exceeding \$1.8B annually and 60-65 days inventory outstanding, significantly above industry benchmarks.
- Manufacturing-Supply Chain Integration Gap - Siloed operations between manufacturing and supply chain functions limit visibility and response agility during disruptions.

NOTE: This is a considerably abbreviated version to represent the report in one page

DEFEND (70%)

Near-term impact with 6-12 month ROI timeline

- Intelligent Disruption Recovery Assistant
 - Business Impact: \$75-100M annual savings through optimized resource allocation during disruptions
 - Key Metrics: 15-25% reduction in disruption recovery time, 30% reduction in customer compensation costs
 - Implementation Approach: 90-day MLP focused on initial crew recovery optimization, expanding to network-wide recovery orchestration
- TechOps Knowledge Navigator
- Business Impact: \$25-40M annual maintenance productivity improvements through accelerated troubleshooting
- Key Metrics: 30% reduction in maintenance 15% improvement in first-time fix rate
- Implementation Approach: Immediate deployment using existing maintenance documentation; 4-6 week implementation timeline with measurable ROI by month 3

EXTEND (20%)

Strategic differentiation with 12-24 month scaling timeline

- Predictive Operations Command Center
 - Business Impact: \$150-200M annual savings plus significant customer satisfaction improvements
 - Key Metrics: 40-60% reduction in preventable disruptions, 2-3% improvement in aircraft utilization
 - Implementation Approach: Business Impact: \$200-300M potential revenue from expanded Key Metrics: 35% reduction in unscheduled maintenance events, 15-20% reduction in downtime

UPEND (10%)

Redefining industry with 2-5 year horizon

- Industry redefining innovations are the result of big ideas being refined in a crucible of creativity and pragmatic application. We typically advise one or more of these approaches:
 - Re:Define leadership team workshop (obituary)
 - Working backwards innovation session
 - Prototyping
 - Business case development

NEXT STEPS

AWS has considerable resources to help you uncover and pursue game-changing strategies – every customer's needs are different. A consultation with Innovation Strategists to understand your portfolio and prescribe the resources to invoke is the logical next step.

WHAT NOW?

1. What is our potential "helicopter moment" - the GenAI-driven innovation that could either disrupt our industry or allow us to transform it ourselves?
2. How are we balancing our GenAI investments across defending our current position, extending our capabilities, and potentially upending our industry?
3. How can we cultivate a culture that embraces rapid experimentation, attracts top AI talent, and accelerates our GenAI innovation cycle?
4. Who is the "customer of tomorrow" in our industry, and how might their needs and expectations be radically different due to GenAI advancements?
5. What strategic changes do we need to make now to ensure we're not just responding to GenAI disruption, but leading it in our sector?

WHAT'S YOUR HELICOPTER?

THANK YOU!
